

Hello to all Channel Islands Figure Skating Club Members! First let me introduce myself. My name is Christi Labrenz (some of you may know me better as Casey Joy's mom) and as of yesterday I have joined our Club Board as an interim Member-at-Large until board elections next May. I'm very excited because we've got a lot of great ideas and things that we'll be working on to make this club the best that it can be. ☺ I hope you'll help me to do that by letting me know of any ideas, suggestions or even just questions you might have. If you can't find me sitting in the bleachers, please e-mail me at cjsk8mom@gmail.com. I will be sending out these newsletters (periodically, as needed) to keep everyone up-to-date and in-the-know, so if you think of any news items or other features you'd like to see included, please contact me.

LIGHTHOUSE EXHIBITION

This Friday – Sept. 23, 2011 at 6:15pm

We've started a new event this summer to provide two main benefits:

- The opportunity to run your program for an audience in a non-competitive environment; either as preparation for competition, or (for the non-competitive skater) as a recital type event that family and friends can be invited to attend.
- The chance to build friendships and a sense of "team". Figure skating is largely an individual sport and requires tremendous amounts of commitment and hard work – no one knows that better than other skaters. So here's your chance to get better acquainted with others that share your goals (and struggles!)

Towards that end we ask that you stay through the entire exhibition (an hour or less) to cheer on all the other skaters and to join us for a pizza party at the end (skaters cost included in entrance fee, any others that would like to eat are asked simply to notify us on the application and include \$5 per person.

Skaters of all levels are encouraged to skate – USFS and Learn-to-Skate students alike.

This is the final Lighthouse Exhibition of the year-it'll be taking a break for Regionals and the holidays. Look for it to return in January 2012! So come watch the show or...there's still time to sign up to skate your program. ☺
